WORK EXPERIENCE

CodeLab   **Lagos, Nigeria**
Frontend Instructor   Nov 2023 – Present
- Utilized innovative teaching methods, including gamified learning activities and project-based assignments, to make frontend concepts accessible and enjoyable for young learners.
- Mentored and coached students through hands-on coding exercises and projects, fostering critical thinking skills and problem-solving abilities essential for frontend development.
- Developed a structured curriculum for frontend web development, covering HTML, CSS, JavaScript, and popular frontend frameworks such as React.js.

Dirt2School   **Lagos, Nigeria**
Frontend Developer   Aug 2023 – 2024
- Designed intuitive user interfaces for enhanced user experience.
- Developed responsive web applications to optimize accessibility across multiple devices.
- Optimized website performance, including page load times and mobile responsiveness, to enhance user experience and encourage repeat visits.

AjConnect   **Lagos, Nigeria**
Frontend Developer   Jan 2023 – 2023.
- Optimized performance and load times of AJConnect's frontend components through code refactoring and performance tuning, resulting in a 30% increase in user satisfaction.
- Integrated third-party APIs and libraries, such as Google Maps and Firebase, to expand AJConnect's functionality and provide users with seamless social networking experiences.
- Implemented user authentication and authorization systems using industry best practices, enhancing AJConnect's security posture and protecting user privacy.
